## Introducing Gerber Water Conservation Services

For over 75 years Gerber Plumbing Fixtures has been known throughout the hotel industry for its Professional Performing products. At Gerber we take water conservation and the Green Movement seriously. Everyday we are developing high performing products that reduce water usage. Let's face it, with water and sewer rates on the rise and local municipalities rebating you to change out your old fixtures, this is a great time to get started saving water, energy and money!

Gerber Water Conservation Services will provide you with the highest performing products and the nations best installation companies. We can provide you with every step to making water conservation a success at your property.

In our initial contact with your hotel, we will send your maintenance staff a pre-water audit survey to determine what types of products that exist in you hotel. This will give us a good understand of how much water and energy you could be saving. After we receive the survey back, we will contact you with an estimate of saving

# How It Works

- Pre-Water Audit Form filled out and sent back to us.
- Determine how much water you can save and what your estimated ROI(Return On Investment) would be. We try to obtain 36 months or less.
- When the ROI is determined we will send out a Certified Water Audit Specialist to your property to conduct an actual audit.
- After the Professional Water Audit is complete we will go over the cost, savings and your Return On Investment.
- If you decide to sign a contract with our services, we will be with you from start to finish! We provide a full training program and parts on our products to your maintenance staff, even a parts kit with a reorder form.

## DETAILS OF WATER SAVING PRODUCT CHANGE OUT

- **Get Started**

- Team up with one of our certified General Contractors who specialize in full Hotel remodeling or New Construction. They can replace and remodel any part of your hotel.

- **Schedule construction** with you to make sure you have a very limited amount of down rooms. We can do one floor at a time or several at a time, the project manager will work with your needs.

- **Replace the Following:**

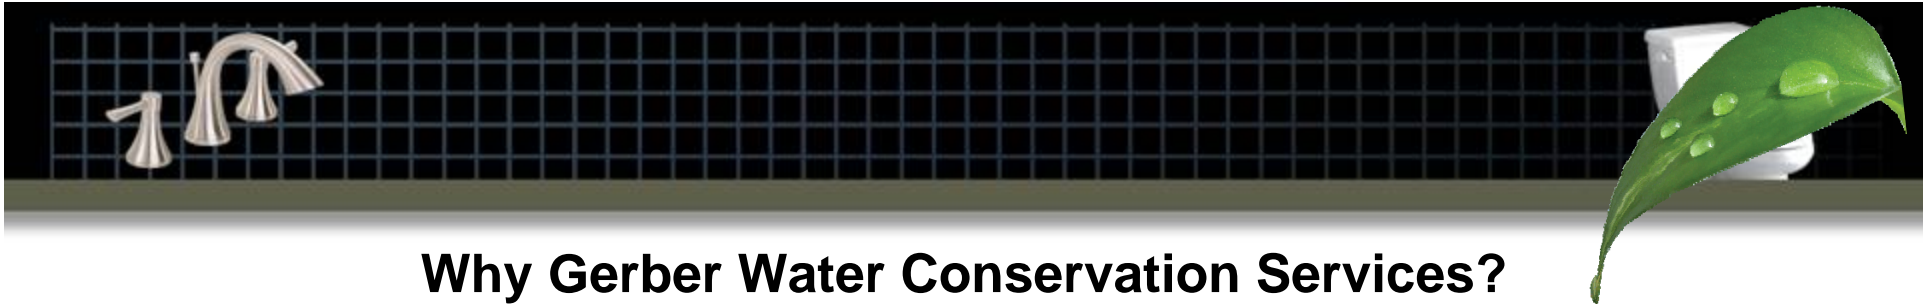

- **Toilets:** New HET(High Efficient Toilets), we can offer 1.6 gpf, 1.28 gpf or our 1.1 gpf with the Best Flushing Performance Technology in the industry!

- **Showerheads:** 2.5gpm, 2.0, 1.75 to one of our 9 incredible 1.5 gpm Showerheads.

- **Faucets:** 2.2 gpm to our large selection of 1.5 gpm Faucets or just change the aerators to 1.5, 1.0 or .5.

- **Install:** Meters on the specific water lines to your washing machine, cooling towers and lawn irrigation systems. In most cases you are paying for sewer charges on 1000's of gals every year.

- **Help you Submit:** Plumbing Fixture rebates from your local municipalities. Some states and towns are paying you to replace your old fixtures and this is part of your ROI.

## Why Gerber Water Conservation Services?

### **Certified Licensed & Insured Installation Professionals**

We work only with national general contractor installers and commercial service professionals who meet the highest standards for experience, know-how and customer service. At Gerber Water Conservation Services, we screen and perform background checks on all of our installers before we send them out on any job, to ensure they have all applicable licenses and insurance. When you hire us for your project, you'll know we will get the job done right and on time.

### **Peace of Mind**

Gerber Water Conservation Services offers superior warranties on our installation service labor and products, to give you peace of mind on the quality of your installation project. All of our installation services are backed by our one-year warranty on labor as well as a five year warranty on all of our products\*.

### **Project Management, from Start to Finish**

When you work with Gerber, you won't have to go to the trouble of finding multiple installers and commercial service professionals for different parts of your project. We provide a dedicated project manager for every commercial installation project, from our initial free consultation all the way through to the installation and cleanup.

### **Flexible Financing**

For all of our commercial services, our installation professionals have teamed up with financial providers to offer you financing for your project. They will work with you to find the financing option that is most convenient for you, to get your installation project underway right away.
